REACH – Declaration for Blum Products

(Regulation EC 1907/2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)).

REACH provides that all chemical substances which are produced in a larger quantity than one tonne per year are only allowed to be sold in the European Union if they are pre-registered or registered.

The Julius Blum GmbH produces no chemical substances. The Julius Blum GmbH sells only products which are defined as articles and not as substances resp. preparation (according to Article 3, Definitions). In line with REACH, Julius Blum Furniture Fittings Mfg. is a downstream user and is not subject to registration. In our own interest and in the interest of our customers we are in constant dialogue with our suppliers in order to guarantee that all delivered products are registered according to REACH. The publication of the first candidate list (<http://echa.europa.eu>) confirms that we have done and will do everything to ensure that no substances of very high concern (SVHC) which exceed concentration limits as defined in REACH are used in products of our suppliers.

If you have further questions about the implementation of REACH at Julius Blum GmbH, please do not hesitate to contact us.

Our person in charge for REACH: Ms. Birgit.Malin@blum.com

Höchst, March 28, 2012

Ing. Lothar Blum
Quality Management
